

Sprint Overview:

We started the sprint by discussing the overview of the project and giving everyone clear tasks.

Sprint goal:

Sprint 1 goal was to establish the project, setup the project tools (trello, discord, etc), define the project requirements and what to implement to the project.

Completed tasks:

- Created the repository for the project
- Created trello and the necessary boards to it
- Set the project topic
- Discussed and wrote the user stories and project vision
- Evaluated the features by difficulty of implementation

What went well:

- Working was very efficient no time wasted on unnecessary things
- Whole team seems to be on the same page in terms of effort put into the project

Time spent table on sprint 1:

Team Number Name	Assigned Tasks	Time Spent (hrs)	In-class tasks
Roope	Sprint Review Report	1	Submitted / Not Submitted
Aleksi	User Stories, planning report	2.5	Submitted / Not Submitted
Elias	Project Vision	1,5	Submitted / Not Submitted
Kirill	Trello	1,5	Submitted / Not Submitted
